

Application No.: 10/009308

Case No.: 54888US006

Amendments to the Specification:

Please amend the specification as follows:

On a new sheet, following the last page of the specification, please insert the following Abstract of the Disclosure:

Abstract of the Disclosure

A fluorine-containing material substrate having coated thereon a pressure sensitive adhesive is irradiated with an electron beam, forming a chemical bond between the substrate and the pressure sensitive adhesive. Furthermore, the pressure sensitive adhesive can be cured by polymerization and also the substrate can be cross-linked.
